Selectman Kilcoyne – Aye. Selectman Cranson – Aye. Chairman Lane – Aye. Motion Carried. The Town has received requests for street lights on Hardscrabble Road and North Row Road. The Chief of Police reported that while he acknowledges that both areas are dark, there were no specific public safety concerns that would warrant additional lighting at either of these places. The State is planning on making substantial upgrades to the intersection near North Row Road and Pratts Jct. Since this project is set tentatively for this coming spring, the Board is hesitant to fund additional Town lighting in that area. However, they have requested an estimate be provided by the Sterling Municipal Light Department to see how much it would cost to have a light installed. Hardscrabble road is a dead end road with few houses. It has never had town lighting and the consensus of the board is that it would be most appropriate for the residents place their own lights on their properties. However, they Board will take no action on either case until it hears back from the Light Department.

Establish Sidewalk working Group	The consensus of the Board was that they would like the Town Administrator to establish a working group that would assist him in putting together a “shovel ready” plan for the center of town that would make the sidewalks ADA compliant and would place the overhead utilities underground. Therefore, the TA will put together a group consisting of members from the following; DPW, EDC, Local Businesses, Light Department, Master Plan Committee, and resident(s). They will start by reviewing and updating the plans that were proposed in 2012 and they will also work on getting cooperation from Verizon.

TA report	

Boundaries:

The Town of Princeton invited the Sterling Selectmen to witness the perambulation of the mutual Town boundaries at a date to be determined, prior to the end of this calendar year. Any response the Board would like me convey to Princeton? (Consensus; At least one member of the Select Board will participate. Members from Open Space Implementation Committee, Conservation Commission and the Sterling Land Trust will be asked if they wish to participate. Residents, abutters and police will be notified of this procedure.)

Elections:

As of yesterday, the Town Clerk's office has processed 738 early voters, since Oct 22. Yesterday set a new daily record of 147 early voters. Most voters are able cast their votes without any waiting. Barbara deserves a lot a credit for setting up the new, State approved, early voting room and process. They only need two extra people to staff the polls. The early voting is open today until 5:00, Thursday until 8:00 PM, and Friday until 11:30 AM.

WRSD is planning their 2019 & 2020 school calendar. To help them maintain building security, they are asking the Town to confirm plans for 2020 local elections. The Town Clerk has confirmed that Sterling usually holds local elections on the 2nd Monday in May. This will be May 11, 2020. (Board Consensus – in favor)

The Town Clerk also noted the Presidential Primary is currently scheduled for Tuesday March 3, 2020. If the Board agrees, I'll respond to the letter the School sent to Chairman Lane with these dates. (Board Consensus – in favor)

Basement:

There is a need to create storage space for some of the Board of Health's expensive emergency response supplies. These supplies need to be secured in a lockable – climate-controlled space without the high heat extremes where they are currently stored in the boiler room. There a proposal to create a closet at the end lower level hallway, essentially under the 1st floor vault. The cost is estimated at \$2,500 including electrical changes. There are funds left in the 2nd basement warrant article (\$3,195) to cover this cost. If the Board agrees, we'll start this project. (Consensus – in favor)
