

# *Sterling Land Trust Program*

Sunday, March 22, 2015 2:30 PM

First Church Parish Hall, 6 Meetinghouse Hill Rd, Sterling

***“Cutting, Mowing, and Burning For Wildlife”***

The Sterling Land Trust has re-scheduled this talk about wildlife habitat management by Rebecca DiGirolomo, Habitat Management Biologist with the Division of Fisheries and Wildlife. Find out why ruffed grouse, New England cottontails, woodcock, and whip-poor-wills need conservation help. Learn how forest cutting, mowing fields, and planned fires create habitat for these critters in need of active land management. Determine actions you can take on your own land to provide wildlife habitat for birds and other wildlife.

This program is free to the public. The Parish Hall is handicapped accessible. Light refreshments will be served. For more information, contact Marion Larson, SLT Board Member (978) 422-5162 or email [marion46@verizon.net](mailto:marion46@verizon.net).
