

Minutes of the 1835 Town Hall Committee

July 25, 2018

The meeting was called to order at 6:31 pm at the 1835 Town Hall building. Members present were Bob Jones, Carl Corrinne, Dave Gibbs, Christine McCarthy, and Joann Drown.

Bob reported that there is very poor construction between the original 1835 roof structure and the 1893 addition. Solutions to the problem were supposed to be presented to the Committee this evening, but that did not happen. We need to decide to spend up to \$5,000, which will provide 3 different solutions to the problem.

The Committee moved to the 2nd floor to see the structure problems for an hour.

Dave made a motion, seconded by Christine, to accept, with reservations, amendment #2 from Joe Booth regarding structural design change expenditure required by the structural deficiencies found between the original building and the addition. The Committee voted unanimously in favor of the motion.

Bob reported that Chuck Budnick, along with Bill Tuttle, dug the exploratory holes needed for the septic system work. Bob will find out the results tomorrow.

Dave made a motion, seconded by Carl, to adjourn the meeting. The Committee voted unanimously to adjourn at 7:35 pm.

Respectfully submitted,

Joann Drown, Recorder
