
1835 Minutes August 24,2022

by Carol Stewart-Grinkis

Meeting began at 6:35 with Christine McCarthy, Ron Pichierri, Carl Corrinne and Carol Stewart-Grinkis attending. Dick Maki also attended. Minutes from 7/27/22 were read and accepted with corrections.

Carl shared a second vendor's report on acoustic panels, following an on- site visit by Colin Poole of Shanahan Design and Installation. This single vendor could supply custom panels and all sound equipment within funds allocated. Questions on panel fabrics, frames and attachment methods as well as sound system components were discussed. Members looking for an additional on- site meeting to review these issues in order to proceed with acceptance of the bid submitted. Carl to set up ASAP.

Easement clearance from the Willmans for the Septic Project has made no progress with letters requesting their approval. We have turned over the matter to Karma in the TA's office to contact legal for other options to forward this long- awaited town improvement work order.

Window treatments are being requoted to include Fire Retardant materials as required by the Fire Department regulations. Carol and Christine to review and advise.

Members waiting on report from Jack Chandler on Friends of the 1835 group development as Grant applications are pending. Carl to contact Jack to report for next meeting.

Carol to contact Joe Klein on his earlier quote on sound equipment. Carl to reconnect with Matt Morro, ADA rep, for door costs for replacements of restrooms and front and back entries.
